EDUCATION

BE In Computer Science And Engineering — Mangalore, Karnataka
St Joseph Engineering College — *Graduation Date: Jul 2026*
CGPA: 8.5

SKILLS & INTERESTS

Full Stack Development
Kotlin, Android, Dart, Javascript, Typescript, Node.js, React.js, Next.js, MongoDB, Docker

UI/UX Designing & Creative
Figma, AdobeXD, Photoshop, Blender, CAD, SolidWorks

Extra-Curricular Activities
Organiser for HackToFuture2.0, Winner at Medithon (Father Muller), Top 20 in Manthan Ideathon

PROJECT EXPERIENCE

Atlas - Hearing Enhancement App
Final Year Project — *Dec 2024 - Oct 2025*

- Spearheaded a team to create an Android application using Kotlin, successfully reducing the cost of hearing aid technology by over 90%.
- Constructed real-time audio processing systems using Oboe and Native C++ to ensure low-latency performance.
- Improved sound classification by implementing a custom CNN to identify and analyze audio spectrograms.
- Expanded application functionality by integrating Firebase Firestore for secure database management and user authentication.

Spotify Jam Webapp
The Sceptix Club, SJEC — *Feb 2025 - Apr 2025*

- Created a fully functional Spotify Jam web application using Next.js, facilitating the queuing of over 10,000 songs.
- Enhanced user engagement through seamless Spotify API integration and music synchronization.
- Designed a robust user database and session management system using Appwrite.
- Maintained and hosted the application on Vercel for high availability.

Hackathon Registration Webapp
HackToFuture 2.0 — *Jan 2024 - Feb 2024*

- Designed a scalable React Native application to streamline participant registration and real-time event tracking.
- Expanded the platform's utility to include efficient management of food, accommodation, and the official jury evaluation process.
- Improved data synchronization by utilizing a Firebase real-time database.
- Successfully deployed the application across both Android and iOS platforms.

WORK EXPERIENCE

UI/UX Design Internship
NatureMark Systems — *Jul 2025 - Nov 2025*

- Designed and prototyped user-centric digital interfaces, improving overall usability, accessibility, and visual appeal.
- Collaborated to ensure all created designs aligned with brand guidelines and project objectives.
